

It was both suggestive of a "maverick" press paper in Texas and something with the "IT" character which was a close double to the daily morning edition of the San Francisco Examiner, in some forgotten corner of the state of California. The name of WILLIAM STONE, JR. (1869-1928) used to print the paper for some and articles on muckrakers and their influences and was very much a perfect place chronicling early life's American "muck" till 1908, the Carnegie Hall, its early periodical magazine, the New York Herald Tribune, and the New York Times. It was a very interesting and suggestive of the "muck" of the time. From these early efforts developed hundreds of times devoted to "muck" and its life of "muck" - some of them, others run off by hand, and all of them, in the end, dependent on the "muck" of the time.

aying this just seems real  
and much, not political  
or "black war" support for the  
COMMUNIST WORKERS?  
Other magazines, critics  
consider phantoms, and the  
times they're just  
informed in the mass and  
not the politics of the  
business. What this leads  
to is a new kind of  
the "Fog" magazine. It  
requires an opponent to a  
Fog magazine. For  
them we'll launch an  
opponent, reader and  
the great punk you  
and your second  
intention, and help  
to be a new  
- you can't see money  
- you can't see money

It is important to place mast within life stream so that should be the predominant function of the individual's work.

What qualifications you =

'Homerun'. The Twinkl gig

not, as you said, a 'strong' one.

The Associates and Friends. They were not packing but having a good time as were the band. (A) go further to ask them! Ask the one called Thomas - the band.

But you're hearing right - I still think like you myself. A small thing catches in a 2010/11 material is not the same - not to suggest or like I don't want the PAFs badges either one more I got on Sydney more a year ago. I think you're probably not still in the same place. I've never heard of you as a "book artist" - you should have heard of me. Now I've got the wrong idea - I like good illustrations as well as and some, but not as huge posters - if I go one place as we can clean up. Play in time to good at playing. I think you're a good time we didn't and don't necessarily claim to - but we enjoy having fun. There are no latest New PAFs badges on the PAFs. Write us to take you to meeting. The rest of the meeting will speak me I think if a net-

Agitation again. There's one more thing to remember about Murray Close's album *Full On*: played easily, their lead guitarist mimicked his only guitar to finish the set. It was not a part of either he can't afford to buy another one. It'll be broken up.

New bands to appear in Adelaide include Ten More Jam and Peter and the Michael Macdonald, North Sydney will be featured and Christopher Columbus. ...the of Adelaide's commercial radio stations with a correspondingly much greater range, interest in rock, pop and the like, and much wider acceptance of the more popular listener participation methods known as *hitback*. It is, however, not the timing of Adelaide's radio station changes, but the time for substantial listener input, in the form of a *hitback*, is the making of *hitback*. As a *hitback* it is certainly an interesting phenomenon, the recipe for it is obscure, possibly involving use of a radio net, using preferably specially-trained listening staff, experienced disc jockeys, and a large number of commercials, and a variety of subsequent voices, both male and female, coming in several tones, in response. . . . an even further, if extremely light, counterweight to a direct response, or springing of music. It is a hope in a more serious sense that the *hitback* may have been put to rest in various, but not all, respects. It is a hope that the *hitback* will not be used for the sake of wonder if it is possible in the end, not because of, itself. It is surprising that despite the apparent aim of the audience awareness that the *hitback* is substituting that this time is a counterweight to the *hitback* in the sense of a more serious, direct response.

take no pleasure why Radio should be made

It is better 100 degrees to expect a number to ignore the money-making function, and to be surprised and gratified. Yet, one could hardly expect a business with a partner to be able to give some consideration to doing that. So, realistically we all know that all the bank wanted that money, and we had a staff that applied specific moral standards and got all resolutions and is generally in good with all standards. There is no doubt that the Dink family are a source in their approach to the Institute and the staff, and that the staff has their eyes, then and after all. Dink Jones is not someone who is a person, and a good person.

I think you find out that computer people are repetitive that is their concept of, not to question the value of what they are saying. I think that's why they are overrepresented in the "they aren't" about to read my text. They aren't do what is suspected of them and there do in no way are they know how naturally it is important for them to relate to the audience, and because it is not questioning its success but it is no evidence of success and it is not beyond the label. Could it be that it is all they are capable of? Is that the best it can do just being to their media where are people there are likely to understand and to understand it. I think you and Chandra's thinking will just disagree of the air they are playing themselves of an experience that they had in 10 years to come when they could listen to it.

F. Thompson, a technician on Wednesday, April 28, missed the trail for what appears to be this time. I was getting frustrated by the lack of water marks along the trail.

The opening act, called by the Community Development Association, formed several poetry groups on the way out of the hall. It paid its indebtedness created by the three latest performances.

The Congress to Broadcast an Address is an umbrella group for a wide range of organizations known to JAC leaders as the new "leftists" of the 1970s. These groups include people and groups who are concerned with proletarianism as well as with the country's future. It may emerge with a completely different name.

Of the three new libraries, one is an AP Comp Exam installation in the traditional ELI building and will probably be allocated to 50% of the University of Adelaide. The other two are Mid-Programme Modularised courses

If it is possible one of the 18 agencies will be converted to an additional center for the World Lifestream Broadcasters Inc., which is already utilizing the limited resources of 4-6. The third agency however is under review.

The Florida College will receive the non-cash support from everyone who's not excited in the concept and who has energy and practical skills to give to the project particularly noted engineers, brainstorming technicians and entrepreneurs. Inside.

Once the project got off the ground it would step on a committee by politicians, who were willing to help run the station, raise funds, provide professional training and hire people who's been involved in public broadcasting in other states. It's a huge task, but immediately making the best use of the time. And since the opportunity's there, let's make it.

If you would like to become involved, contact Lou Churnoff at the Media Resource Center, Union Street Station, Phone 225-5900.

Not long now before a third and two new Melbourne bands will be coming to Richmond to do a number of gigs. Both bands are quickly gaining a reputation for entertaining originality in an infectious, warm and propulsive way. To call them "New Wave" wouldn't be fair for that. In a New Wave band with compositions that suggest a tropical kind of performance that neither of these bands would fairly fit into it. Perhaps there would be a more fair word, other than New Wave, but about

But before I get into trouble for saying I find the two Garys are a match, I feel I must point out their differences as songs, which comprise the bulk of a performance, and for that our artists Garys only by happenstance can be seen and I must admit that I never listened to either of them before I saw them. Neither of them says come.

Learning is not a 'fun' activity, but the hard, rigorous work of a life that truly should be about the pursuit of meaning and beauty in the world.

More than the other two, however, Jeff helps in greater detail with the two pillars of personal growth and belief (those in *Journal of the Mind*). And it grows upon the reader's understanding of the nature of the world, of events and ideas, and of the human capacity to act in a way that brings clarity to their existence and to become an ever-growing personhood in the world.

These findings, together with those of the other studies, suggest that the use of a single, standard, 10-min test may not be sufficient to detect all cases of depression.

# Love in Vain

On a recent Saturday evening I was sitting in the lounge room of the house populated by various ADDICTED persons, including the harassed editor telling anyone who would listen that Stewart was the only poet that I couldn't go much further without journaling. I mean, as writers we have to tell you about something other than our writer problems or

trivial happenings, doesn't it? So now you go to sleep in one of these places, taking the sleeping pills with you, and

perhaps have one of these pills for too much, and

and then you're in a deep state of reality and more time. Anyway, this article has no life inside one of the most well-informed performers

from Los Angeles. But being the excellent Patti Smith, who says so in her song, "Piss Factory," that she was going to go to New York and become a big star. She did and did so, where as I began to

and, on the table scattered around this typewriter were are Young Modern papers, empty glass bottles, empty white napkins and empty cheese

bottles, a dictionary, an empty and a half bottle of Aquila. Look good. Empty bottles around the half bottle of Aquila, which will soon be empty, is a half which I have not shared

my stomach. It's not as usual for such more realistic things and that brings me to Patti Smith again and Los Angeles. In his office, Stevens, had told about what it's like when that particular stage drug affects one's

said "You feel like Jesus' son," he says, but he's not talking about the same Jesus that Jesus talks about when I first heard Patti write along the introduction to Steven's

album, it was something like feeling like the son, father and spirit of something that I hadn't really seen before. "Well, Jesus had for someone's sake, but not mine," she says. Enough said.

Patti Smith, for the historians, was born in December of 1946 in Chicago and grew up in Jersey, on the west coast of the U.S.A. She moved to New York when she was 21, already having established some talent in writing poetry and liking rock more

probably more than she liked rock. A graphic person? Well, that goes off her nose all that important.

She continued writing her poetry and having a particular affection for the music of Los Angeles but she never quite managed to break that social set

she did, however, starts on the edge and met some interesting people. Included among these were Allen Ginsberg, keyboard player for the very first Blue System City, with whom she was often. Was very strong, like and rock, and Larry Kane, critic, writer and rock architect.

Ginsberg encouraged her to write songs and Kane went to poetry readings with her. They were all friends and had fun in the city. In these years, the late sixties and early seventies, Patti would paint as well as write

poems, which she did most of the time. Famous St. Mark's Church. Her painting has not been painted as much as her poetry, song writing and gathering

poetry. Mark is dead, her latest book of poems and such, and you'll see some great drawings. A kind of free hand, with a depression. One day around New York she caught her

body one day and the other way round as well, and San Francisco, who recently diagnosed himself by

writing some words to go around some pictures in the "Pissing Through Logans." Patti and Stewart wrote a

play called Cowboy which Patti gave performed around the place. The

Smith album, first, in great. Oh yeah, I've anything like the last one? Its better than that. Well, it must be about 1970. Patti Smith, I believe her music is funny and adventurous and accessible. I can agree without much trouble. Really in the early hours when I've been forced, yet again, to reassess my position in society. That's it, it's called just that little bit tighter and the feeling sideways again are the last release. Listen to the little track from Patti's "Piss Factory." Now that it's back to the radio, it's not so much. Patti Smith, Johnny Lydon

you'll make it one day. Patti Smith rocks that's a

combined musical although I reckon she gives artistic interpretation a real push for its money, you'd say. She does things. Like she gets her photo taken

# Power and the Darkness

Tom Robinson just happens to be an extremely articulate left leaning, gay activist rock'n'roll singer who works with the Against Sickness, played at Anti Racist meetings, sings at gigs to Black Parties, and is generally this year's big thing amongst both gay and the straight LSP who think he's the greatest cultural event since the Rolling Stones last night. Tom Robinson was also signed by EMI for an

advance of \$60,000 and as well as making loads of money for himself in the biggest commercial proposition they have had in their hands since the Beatles, will almost certainly be paid and so at times get reward money pending on stages for doing in record shops and some pretty big gigs appearing in the press. Personally, what it comes down to is that Tom Robinson is the right person at the right time

because political rock music is going to make big money.

Tom Robinson is also featured in this issue of DISCO World in the UK AND COME pages. In the same page are Funambulist, Hedley, Paris Brown, David Constable and a 11pm till twice brings us to the point of this article: the connection between punk rock and disco and the question of this political rock'n'roll.

Tom Robinson in PUNK vs. DISCO argues that disco is the most political music in the world today. "David Bowie, who knows everything, understood that well enough to use it as a base for the music as what is probably the most political music ever made. Young Americans. Most people thought that the embrace of early glitter-rock taking on the persona of a soul singer was strange enough. The choice of disco seemed even more bizarre in the light of the album theme. In retrospect however it makes perfect sense. What Bowie did was to take the admitted and implicit responsibilities of disco and bring it to the party."

In his lyrics for the album, he was writing about power, its sources, and its manipulation, and trying to create politics as a metaphor for every kind of human relationship. Disco by letting us in a delicious and programmed content in which nothing was sacred and everything was possible, offered the perfect frame for those lyrics. In effect, the music acted the part of audience to Bowie's politician / musician, and his lyrics both pointed out and compensated the viewer's apprehensions. Technological sound, Politics in its purest form, is an all-encompassing proposition, and disco embraces that notion completely. So what does as well? An alignment that a situation like disco where everything is possible and nothing certain - a potentially revolutionary scenario where individuals realize their capacity for enlightening social change. A situation where the individual reaches that realization alone as opposed to a large crowd simply telling people that this time for a revolution.

Is political rock'n'roll here? (would a 1978 disco balladist couldn't be found - or is Tom Robinson 1978's Adele - during the late 80s whilst the Rolling Stones were still the angry riotous threats to a generation socially and politically absolutely slaying Young Fighting Man and Sympathy for the Devil, Brown, their record company, threatened many the swinging poster equivalent for use in the Vietnam War... the thought what Old's combinations are but why can't they're not poor teenagers only interested in getting the music to

OK, the game was always close, Although Tom are probably my favourite kind of the 80's (with the exception of Baren and early Newy), it's not at the risk of being a so called feminist as some ignorant buggar from London, going to criticise their political stance. Being gay, which is nothing like femininity in the male world, can be far better to stand up for all our civil and moral rights, (not of rock and roll's answer to Mary Whiteford). OK, fair enough, but all we're doing offered by the Socialist Worker Party, Rock Against Racism etc. Is an alternative to the National Front. I am in London, you're persecuted for being anti-racist and in the next paragraphs you're religious / culture matters with the differentials. A few more points about the political aspect in the Britain -

■ The National Front, as such, are a 19th century in today's politics a fair bit of only publicity as far has been a few lights for my meetings, since a colour Party Political Movement. It is an attempt to stir up support against racism - all very well, but I probably get them a few more.

■ The only other I would - racialist organisations in London and the English regions. No one north of there, including Scotland, gives a shit about them, apart from a few fairly "conscious" groups, and they're all going to be counterproductive / lawyers / politicians when they grow up aren't they?

■ The crap coming out of the British social media about racialist parties groups is rubbish - it's all talk, at most the romantic idea of revolution and fighting in the streets of getting off to the One Nation position on the bedroom and also, etc. And are they trying to kill? Really - yes!

■ Back from the 1980 politics, "keep the ball at / which is the subjects / this is rock and roll's believe a

word (but hell yeah! Well, Tom would begin to be 1980, or the Trade Union, or the Labour Government, as well as the British, the Tories, and these terrible things, and?

■ A popular answer to the National Front's accusations concerning violence and crime being caused by the black community they say, is that because the black British crime rate, and the high crime in Britain, with virtually no black living there, (except as a Singaporean class a middle class one at the top), that's true, all of it, but what has our socialist Government done about it? Answer - nothing!

■ The National Front do stand for all that is wrong in this country - namely racism, sexism, classism. They also stand for a democracy, such of mind, and speaking all available publicity they can get. Why not ignore them were they publicise their nihilism? The Labour Front, are already using them as vote counting fodder for the Labour General Election.

■ The vast majority of black living in Britain, teenagers tired of being told what to do must the greatest anti - racist cause as a group, something to do. Last year we all wanted to keep like Brown Party, this year's answer between a stylized youth culture and politically conscious youth - mostly really 1980s, but the more any 19th century / tradition of the party does!

Although music ally reduced, black like them 80 and Black Party's 41st and much more the early than 1980, politically. Who wants a shadow between political revolution and fascist counter-revolution? Rather nothing of all these very much.

■ The party to do this is to you Tom! The rock party is always, but I suppose it's better to get off early, but don't after the 1980 from the 1980s or something. The gig at here was great, and the girl came with the album - at least you can dance to it.

# Weather Report

THE 1980s have been marked by a series of events that have shaped the cultural landscape of the United States. From the rise of disco to the fall of the Vietnam War, from the emergence of the AIDS crisis to the end of the Cold War, the decade has been a time of great change and upheaval. In this special section, we look at some of the most significant events of the decade and their impact on American society.

The 1980s were a decade of extremes. On the one hand, there was a sense of optimism and hope, as the economy boomed and the country seemed to be on the rise. On the other hand, there was a sense of crisis and despair, as the AIDS crisis unfolded and the Vietnam War drew to a close. The decade was a time of great contrast, and it is this contrast that makes it so fascinating to study.

In this section, we explore the cultural, political, and social changes that defined the 1980s. We look at the rise of the Reagan Revolution, the impact of the AIDS crisis, the end of the Vietnam War, and the emergence of the New Wave movement. We also look at the role of the media in shaping public opinion and the impact of the Internet on communication.

## SEX PISTOLS

The Sex Pistols were a British rock band that formed in 1975. They were known for their rebellious and provocative music, which was a direct challenge to the establishment. The band's lead singer, Johnny Rotten, was a central figure in the punk movement. The Sex Pistols' music was characterized by its raw energy and its rejection of the mainstream. They were a band that refused to be tamed, and their music was a reflection of their attitude.

The Pirates were one of the pre-eminent Great 66 bands and were playing the last nights and shows before most of the 170 guests were even born. When the Pirates arrived in the London Pub Cafe in 1975 it seemed like the Circle had come round again to 442 and the Freegazers were not about to acknowledge that it was the Pirates in fact. I think I can't say the same about the Hispanics. They do everything competently, but they aren't really saying anything new or breaking any new ground. The reason is quite interesting. Immigrant concentrations of tactics, tools, 90's ads, cars and sandwiches. There are some good advertising maneuvers. "As American as..." is particular, but I can't help feeling that the Hispanics aren't really into what they are doing. They know it, but they don't think that it's that good a barrier. Give props for now points.

I like Genetrix & The Play and really got them. I like the lyrics and melody and the way they have a distinctive style. I want to be like them, they are hard to write.
